

Product Launch
The new monta paper tape

January 2024

The new, optimized paper tape with natural rubber adhesive

- / **Improved adhesive** formula for very high adhesion and immediate tack
- / **New, smoother paper backing**, 55g/m² strong
- / **Silicone-free**, free from synthetic plastics
- / Paper backing from **chlorine-free (ECF) bleached pulp** from sustainable forestry
- / **Minimal material consumption**: applying one layer is sufficient
- / **Very good printability**, also with water-based ink
- / Manufactured at the monta factory in **Germany**
- / A reliable **alternative** to plastic-based adhesive tapes or water activated tapes
- / For **mono-material** packaging solutions and **natural looks**

- / Very good adhesion & immediate tack
- / Good weatherability & moisture resistance
- / Silicone-free, free from synthetic plastics
- / Pleasantly easy & low noise unwinding
- / Tearable by hand
- / With finger tab
- / Temperature resistance up to +60°C short-term, after application at room temperature
- / Very good printability, also with water based ink
- / Recyclable with carton

TECHNICAL DATA	METRIC		IMPERIAL	
Backing	Paper			
Adhesive	Natural rubber			
Colour	Brown, pure white			
Tensile strength	N/25mm	mind. 80	lb/in	18,4
	N/cm	mind. 32		
Backing thickness	g/m ²	55		
Adhesive strength on steel	cN/25mm	550	oz/in	20,2
	N/cm	2,2		
Core diameter	mm	76	in	3

Typical values, further details in TDS.

	843	852
Backing colour	brown	pure white
Adhesive colour	transparent	white
Dimensions	hand roll machine roll print roll	hand roll print roll
Description	 <p>Natural looking, “green” product</p>	 <p>Pure white tape for fantastic optics & best print results</p>

APPLICATIONS

- / Permanent closure of light to medium heavy cartons
- / Also for bags, envelopes and boxes
- / Printed ideal as advertising or information medium
- / Where low noise levels and ergonomic work conditions are a priority
- / As an alternative to water activated tape, to avoid investment & disadvantages of immobile packing stations
- / Manual application with hand and table dispensers
- / Application with packaging machines

INDUSTRIES / MARKETS

For anyone looking for mono-material packaging solutions and natural looks:

- / Packaging distributors
- / Printers
- / Industry end-users
- / Packaging service providers
- / Manufacturers of organic products
- / „Green“ e-Commerce
- / Office use

- / Press release
- / Product flyer
- / Product photos
- / Greenline logo
- / Technical data sheet

/ Marketing material is available on request from week 2/2024

FIT FOR FUTURE: THE NEW MONTA PAPER TAPE

FIBRE BASED BACKING AND STRONG ADHESION

Our new Greenline paper adhesive tape impresses with its optimized adhesive formula and its new, smoother paper backing made from chlorofree (FCF) bleached pulp sourced from sustainable forestry. Our silicone-free paper adhesive tape is a reliable alternative to plastic based packaging tapes due to its natural rubber adhesive with high adhesive strength and immediate tack. It adheres reliably even when applied in a single layer, and is perfect for the permanent closure of light to medium heavy cardboard boxes, as well as mailing bags, pouches and cartons.

As a medium for advertising, it offers a clear print image, hence maximises the impact of brand messages. It is also pleasantly quiet and easy to unwind.

The new mono-layer paper adhesive tape is an ergonomic, mono-material packaging solution for anyone looking for a plastic-free adhesive tape or a flexible, user-friendly alternative to water activated tapes.

For a more natural look, monta 843 with its brown backing and same paper adhesive is the ideal choice. For particularly high-quality print results, monta 852 with a white adhesive on pure white paper is available.

TECHNICAL DATA		METRIC	IMPERIAL
Backing	Paper		
Adhesive	Natural rubber		
Colour	Brown, pure white		
Tensile strength	N/25mm N/cm	mind. 80 mind. 32	lb/in 18.4

PROPERTIES

- Very high adhesion and immediate tack on various carton qualities
- Silicone free, free from synthetic plastic
- Easy and low noise unwinding
- Tearable by hand
- Printable, also with water-based ink
- Temperature resistance up to +100°C aluminum, other application or room temperature
- Good weatherability and moisture resistance
- Recyclable with carton

Available on hand, machine and print rolls on monta Greenline core: 50m x 50mm, 500m x 50mm, 500m x 150mm.
