

Technical Data Sheet: MONTA RETEC 831

Status: 06/2023

monta reTec 831 is a sustainable adhesive tape for multiple applications and ensures the reliable, permanent closure of medium heavy to heavy cartons. Its resource conserving BOPP carrier consists of $\geq 99\%$ reprocessed polyproylene. Because of the backside coating this adhesive tape is easy to unwind and therefore also ideal for the application with packaging machines. If stored and applied correctly, the adhesive tape secures the permanent carton closure even in deep-freeze conditions.

PROPERTIES

- / high tensile strength in longitudinal and cross direction
- / high immediate tack and adhesion on various surfaces
- / easy to unwind
- / resistant to diluted acids and alkalies
- / temperature resistant: after application at room temperature from approx. -30°C up to +130°C short term
- / suitable for recycling processes
- / carbon neutral
